<b>NO</b> (GAF-Elk yes)	<b>YES</b>

\*Review ltd. warranty (on back page) for complete coverage and restrictions. Installer certification is related only to installations covered by GAF-Elk system warranties.

## Eligibility Requirements For The! Smart Choice@Broadberryroofing. Warranty

1. Your roof must be installed by an eligible GAF-Elk certified contractor.
2. You must install qualifying GAF-Elk shingles and at least three of the following Roof System Solution products:
  - A. GAF-Elk Roof Deck Protection ... Deck-Armor™ or Shinule-Mate™.
  - B. GAF-Elk leak Barrier...either Weather Watch®, Stormsuarc™. or UnderRoofM2 in valleys and around all penetrations. In areas prone to ice damming, Weather Watch®, StormGuard®, or UnderRoof™2 Leak Barrier is strongly recommended at all eaves to at least 24" inside of the warm wall.
  - C. GAF-Elk Pre-Cut Starter Strip Products (with factory-applied adhesive) ... installed at the eaves V (eligible products include Pro-Start™, Weather Blocker™ or WeatherStop™).
  - D. GAF-Elk Attic Exhaust Ventilation ... which includes Cobra® or Master How™ exhaust ventilation products. Ventilation Note: Minimum net free ventilation area of 1 sq. foot (or meter) per 150 sq. feet (or meters) of ceiling area is required. When intake vents are located at the eaves and exhaust vents are located near the roof's peak (in a properly balanced system) for maximum air flow, ventilation may be reduced to 1 sq. foot (or meter) per 300 sq. feet (or meters).
  - E. GAF-Elk Ridge Cap...which includes Timbertex™, Ridglass®, Seal-A-Ridge®, Sequoia®/Canyon™, Z®Ridge, or Vented RidgeCrest™. Note: If cut-up GAF-Elk strip shingles are used instead of one of the eligible ridge cap products on the Application Form, the warranty term and Smart Choice™ protection period for the cut-up strip shingles is the same as it would be if that shingle were used in the field of the roof. (For example, if Royal Sovereign® shingles are cut up and used as your ridge cap, then the warranty term for those cut-up Royal Sovereign® shingles is 25 years.) In addition, on roofs where Royal Sovereign™ or Marquis® WeatherMax™ shingles are installed, you may use cut-up Royal Sovereign® or Marquis® WeatherMax™ shingles as the ridge cap, and they will quality as one of the required accessories. Note: To improve the finished look of the roof, the use of GAF-Elk accessory paint is highly recommended. GAF-Elk accessory paint is covered by the Smart Choice™ Roof System Ltd. warranty, but does NOT count toward the required number of accessories.
3. Registration ...Property owner can register this warranty online by going to [www.gaf.com/registermywarranty](http://www.gaf.com/registermywarranty) (you must know your contractor's GAF-Elk certification number in order to complete the registration). Or, GAF-Elk certified contractor can register this warranty at Certified Contractor Zone. The cost of this

warranty is \$95, which must be paid online at time of registration. The warranty must be registered within 45 days after installation. GAF-Elk reserves the right not to issue the Smart Choice" Roof System ltd. warranty if the warranty is not registered within 45 days. Note: Warranty covers only GAF-Elk products. Warranty is not effective until your roofing contractor has been paid in full.
